

NOTICE
Free Birth Control for Northwood and surrounding towns

RS Butler's Trading Co. on Rt. 4 is distributing free Plan B and free birth control in their shop courtesy of the nonprofit group [Reproduction Freedom Fund of NH](#). Both are available at their front counter for anyone who wants them at ***102 First NH Tnpk in Northwood.***

They have been distributing free Plan B for about a year, but are now also offering free birth control pills. These are over the counter meds but are quite expensive, so ReproFundNH distributes them for free.

This is the only location in our part of the state providing them, so please spread the word. They have been handing out a lot since the 2024 election and, if things continue down the current path, we can expect they'll be handing out even more.
